INTERESTED DOMAIN

Interested Domain: Artificial Intelligence (AI) & Machine Learning

PROFESSIONAL SUMMARY

Computer Engineering student with strong interest in Artificial Intelligence and Machine Learning. Experienced with academic projects involving predictive analytics, computer vision, Random Forest, Logistic Regression, and CNN-based systems.

EDUCATION

SES's R.C. Patel Institute of Technology

B. Tech in Computer Engineering, CGPA: 8.67/10

Jain International School

12th (HSC), Percentage: 74.14%

Jain International School

10th (SSC), Percentage: 93.00%

Shirpur, Maharashtra

Jul 2023 - Present

Jamner, Maharashtra

2023

Jamner, Maharashtra

2021

TECHNICAL SKILLS

Programming: Java, Python, C

ML & AI: Random Forest, Logistic Regression, CNN, SVM, KNN, K-Means, NLP, RAG, Deep Learning

Core: DSA, OOP, DBMS

Tools: Git, GitHub, Colab, VS Code, Langflow, Figma, Canva

PROJECTS

IoT-Based Water Borne Disease Predictor | *Ongoing Project* | IoT, Random Forest, Logistic Regression

- Designed an IoT-enabled water quality monitoring system using pH, TDS, turbidity, and temperature sensors.
- Implemented Random Forest for water quality classification and Logistic Regression for disease outbreak risk prediction.
- Worked on sensor data acquisition, preprocessing, and integration of ML models for predictive analytics.

Emotion Detection Web Application | *Academic Project* | CNN, Deep Learning, Wav2Vec2

- Developed an emotion recognition system using CNN models trained on the FER2013 dataset.
- Explored multimodal emotion detection through audio-based analysis using Wav2Vec2 and the TESS dataset.
- Contributed to model evaluation, testing, and system integration for emotion prediction workflows.

Deepfake Detection System | *SIH Hackathon Project* | Machine Learning, Research

- Researched methods for detecting AI-generated visual and audio content using machine learning approaches.
- Studied CNN-based classification techniques, feature extraction, and dataset preparation strategies.
- Contributed to solution design, literature review, and presentation during Smart India Hackathon development.

PROBLEM SOLVING

CodeChef: 2 Star (1433 Rating)

LeetCode: Solved 77+ problems involving Data Structures and Algorithms

CERTIFICATIONS

CodeChef Certifications: Problem Solving, Data Structures & Algorithms, Python Programming, Java Programming, Web Development

ACHIEVEMENTS

GATE 2026: Score 404, AIR 17,712 among 211,020 candidates

Smart India Hackathon: Participant in SIH 2023, SIH 2024, and SIH 2025

LEADERSHIP & ACTIVITIES

Google Developer Groups on Campus (GDGoC), RCPIT: Core Team Member (2024–26), Documentation Team Member (2023–24); organized and led 15+ technical events, workshops, hackathons, and student outreach initiatives.

Association for Computing Machinery (ACM) Student Chapter, RCPIT: Web Master responsible for website management, content updates, event promotion, and chapter outreach activities.
